Description:

This course focuses on currency. During the week-long program, students will identify U.S. coins and bills and understand their value through games, currency based addition and subtraction word problems, and art projects to support students' learning. Participants will play games, read stories, use manipulatives, and make their own piggy banks. At the end of the week, students will "go shopping" in Mrs. Pedersen's classroom with play money earned throughout the week to apply their new skills to a real-life situation. Students are sure to feel like a million bucks as their confidence grows!
