Description:

Each day will have a common core state standard as the focus. The activities will be hands-on, project and performance based to teach and reinforce that particular day's common core standard. The course is 5 days, so skills and standards addressed will be selected based on what is most important for success in the school year that follows. The learning will be fun! Examples may include working with a small group to create and present an ideal society, or investigate some of the most famous murders in history!
